

# Excuse-O-Matic!

1. Cut out the four circles and decorate them.
2. Make holes through the centres with a pencil.

3. Add your own start, middle and ends in the blank spaces.
4. Stack up the circles – big on the bottom, then medium, then small, then put the front circle on top.

5. Put a split pin through the four circles, or use a drawing pin on a cork board.
6. Then spin your circles and find your next brilliant excuse!
